PROJECT TITLE

**Designing a dynamic digital portfolio
website and**

AGENDA

1. Problem Statement
2. Project Overview
3. End Users
4. Tools and Technologies
5. Portfolio design and Layout
6. Features and Functionality
7. Results and Screenshots
8. Conclusion
9. Github Link

PROBLEM STATEMENT

- 1. Lack of Personal Branding:** Many individuals struggle to effectively showcase their skills and projects online due to the absence of a personalized portfolio.
- 2. Static or Outdated Content:** Traditional resumes or static sites don't reflect real-time updates, limiting their usefulness for dynamic careers like design or development.
- 3. Limited Interactivity:** Existing templates often lack interactive features that engage potential employers or clients.

PROJECT OVERVIEW

- 1. Objective:** To design and develop a responsive, user-friendly digital portfolio that showcases personal projects, skills, experience, and achievements.
- 2. Scope:** The project covers frontend design, backend integration (if needed), and deployment to a live server.
- 3. Approach:** Adopt a modern, minimalist design philosophy with interactive UI components and smooth navigation.

WHO ARE THE END USERS?

- 1. Students and job seekers showcasing their skills to employers.**
- 2. Freelancers and professionals presenting past projects to clients.**
- 3. Recruiters, employers, and collaborators reviewing candidate profiles.**

TOOLS AND TECHNIQUES

1. Frontend: HTML5, CSS3, JavaScript, React/Angular.
2. Backend: Node.js/Express, PHP, or Django.
3. Database & Hosting: MySQL/MongoDB, Firebase, or AWS.

POTFOLIO DESIGN AND LAYOUT

- 1. Clean, minimal, and professional design with easy navigation.**
- 2. Sections for About, Skills, Projects, Achievements, and Contact.**
- 3. Responsive grid-based design with engaging visuals.**

FEATURES AND FUNCTIONALITY

- 1. Interactive project showcase with images, videos, or live demos.**
- 2. Contact form, downloadable CV, and integrated social links.**
- 3. Admin panel or CMS for easy content updates.**

RESULTS AND SCREENSHOTS

1. Fully functional, responsive portfolio website deployed online.

2. Screenshots displaying homepage, skills, and project sections.

3. Smooth navigation and improved user engagement observed.

CONCLUSION

- 1. The project solves the problem of static, outdated portfolios.**
- 2. It provides a dynamic, user-friendly, and professional platform.**
- 3. The website can be scaled with more features like blogs or AI-based recommendations.**
